Warranty Coverage

IKEA will examine the product and decide, at its sole discretion, if it is covered under this guarantee. If considered covered, IKEA through its own service operations, will then, at its sole discretion, either repair the defective product or replace it with the same or a comparable product. If it is covered by this guarantee, IKEA will pay the costs of repairs, spare parts, labour and travel for repair staff that IKEA incur, provided that the product is accessible for repair without special expenditure. This does not apply to any repair work not authorized by IKEA. Replaced parts become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. It is IKEA that determines, at its sole discretion, what constitutes an appropriate replacement.

What is not covered under this guarantee?

This guarantee does not apply to products that have been stored, assembled or installed incorrectly, used inappropriately, abused, misused, altered, or cleaned using the wrong cleaning methods or cleaning products.

This guarantee does not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents.

This guarantee does not apply if the product has been placed outdoors or in a humid environment.

Voluntary Guarantee (“Guarantee”) coverage:

We are confident in the quality of our products and we offer an additional IKEA guarantee which varies according to the relevant products, in addition to the legal warranty in case of defects in our products. The IKEA guarantee will be effective if material or manufacturing defects are detected in the product you have purchased from IKEA stores, within the scope of the guarantee period and on the condition that it complies with the guarantee terms. In this case, the product is repaired, replaced or refunded as an in-store card where the amount corresponds to the defective part of the product as determined by IKEA, without charging you any further fees following an inspection done by our experts. IKEA will decide which of these options to apply based on an assessment.

Our seating furniture is put to the test

At IKEA we test all our sofas, armchairs, sofa-beds, and footstools to be sure that they're durable. And we're especially tough on the ones that have long guarantees. For example, we push one 100 kg weight onto the seat 50,000 times – and one 30 kg weight onto the back just as many times. We do all this to be sure that the frames retain their stability and that the cushions retain their resilience and comfort. The guarantees we provide are proof that our seating furniture can withstand being used often and for a long time – and thereby provide an assurance for you as a customer.

Care Instructions

Cushions

To maintain the comfort of your cushions, use them with care. At least once a month, gently fluff the cushions to restore their volume. To ensure even wear, regularly rotate the cushions—swap those used more frequently with those used less.

Washable Covers

- Always follow the care and cleaning instructions provided with the product.
- Iron the cover while it is slightly damp.
- Refit the cover while it is still slightly damp. When slightly damp, the fabric stretches more easily, allowing the cover to return to its proper shape more quickly and smoothly.

Note: The cover must not be too wet when reattaching it to the frame.

Leather

- Vacuum regularly using a soft brush attachment.
- To prevent the leather from drying out, avoid direct sunlight and keep all leather furniture at least 30 cm away from heat sources.
- Clean the leather thoroughly once or twice a year using appropriate leather care products.
- Never use detergents.
- White or light-colored leather furniture is highly sensitive to the dyes in dark-colored substances such as red wine or coffee. Spills should be wiped away immediately.
- Always refer to the care and cleaning instructions provided with the product.

STOCKHOLM Leather Sofas

Use with care and clean regularly using a soft brush attachment on your vacuum cleaner. If necessary, gently wipe with a damp cloth.

Do not use leather care products.

Refer to the product manual for specific care instructions and usage recommendations.
